To: Whom It May Concern,

This is a letter of recommendation for Sinisa Bozic regarding my opinion on his suitability for PhD studies in the economics and finance field.

My name is William Parrott. I gained my Masters degree at the University of Aberdeen. I then trained as a Chartered Accountant with KPMG and completed my ACA qualification having achieved first time passes in all papers. Whilst with KPMG I worked in the audit, tax and corporate finance departments. I started my teaching career in 1996 and since that date I has taught on both MBA and professional courses in many countries around the world.

I met Sinisa Bozic at the London School of Commerce, during 2014 and 2015, when I lectured on the Financial Analysis and Management, and Corporate Finance modules of his MBA. Sinisa was an excellent student who was keen to learn and took every opportunity to contribute during the classes. He obviously had good knowledge and was keen to expand his knowledge further. Additionally he was adept at applying his knowledge and thinking beyond the immediate task. He successfully achieved good first time passes in both the FAM and Corporate Finance modules.

I have no hesitation in recommending Sinisa for a PhD programme as I feel his enthusiasm and desire to contribute will make him an asset to any such programme.

Yours Sincerely,

William Parrott MA ACA
